

FULL-STACK / FRONTEND DEVELOPER

PROFILE

Full-stack developer with a strong passion for learning, problem-solving, and creating user-friendly applications.

Experienced in developing and maintaining full-stack web applications using React, Node.js, and .NET Core – integrating RESTful APIs and managing databases with MongoDB and SQL.

Recently completed a freelance project improving and extending an interactive quiz & group game platform (React + .NET + SQL), featuring full UI redesign and backend feature development.

Graduate of an intensive Full-Stack Bootcamp at Coding Academy with a final project – an Airbnb-like platform built with React, Node.js, and MongoDB – [View my portfolio](#)

EDUCATION

FULL-STACK WEB DEVELOPMENT CERTIFICATE

Coding Academy
2024

MASTER'S DEGREE IN MATHEMATICS

Jerusalem College
2014 - 2016

BACHELOR'S DEGREE IN MATHEMATICS (Summa Cum Laud)

Jerusalem College
2010 – 2014

WORK EXPERIENCE

FREELANCE DEVELOPER

2025 - present

Interactive Quiz & Group Game Platform (React, .NET, SQL)

Contributed to an existing full-stack application by implementing new gameplay features, fixing major frontend and backend issues, and redesigning the UI based on a Figma prototype. Worked collaboratively with a project lead, enhancing both React and .NET components to improve stability, functionality, and user experience.
